Subj: APPROVAL OF EPIRB1 PRO, CATEGORY 1, 406 MHZ EPIRB

In response to your letter dated January 29, 2020, and the supporting information submitted with several emails dated January 30, 2020 through April 16, 2020, we have completed our review of your request for approval of the EPIRB1 Pro, class 2, category 1, 406 MHz EPIRB (float-free, automatically-activated). Based on the information and test reports from TUV SUD (Document 75947245, Report 1, Issue 1, dated November 21, 2019, and Document 75946431 Report 01 Issue 2, dated December 19, 2019), we accept the EPIRB1 Pro as meeting the relevant requirements of RTCM Standard 11000.3 and COSPAS-SARSAT C/S T.007 Class 2 (occasional polar transit), Category 1 (automatic release) in accordance with 46 CFR 161.011 and 47 CFR 80.1061.

This letter was delivered electronically to [Simon.Nolan@oceansignal.com](mailto:Simon.Nolan@oceansignal.com) per direction in your email of April 16, 2020. No hard copies will be provided. You are welcome to print as many copies as you wish. If you have any follow-up to this letter, please contact Marty Jackson via [typeapproval@uscg.mil](mailto:typeapproval@uscg.mil). Please reference ID#: 2020-0056 in any correspondence related to this project.

Sincerely,

B. A. BALDWIN  
Chief, Lifesaving and Fire Safety Division  
U.S. Coast Guard  
By direction
